WHO'S WHO: FAR EAST UNIVERSITY, KOREA

(Who's Who is a brief profile prepared by the represented ISASI corporate member organization to provide a more thorough understanding of the organization's role and function.—Editor)

Far East University was founded in Korea in 1997. The university is quickly growing and now has six colleges, including the College of Aviation. The university recently joined ISASI as a corporate member, the first Korean corporation to do so, which is regarded as a great honor by all. The College of Aviation has six departments: Aviation Safety Management, Flight Operations, Helicopter/UAM Operations, Aircraft Maintenance, Airline Cabin Service, and Air Mobility.

An aviation safety training center will soon be opening for aviation safety professionals, and graduate students will be able to specialize in aviation safety management. The Aviation Safety Management Department is new and needs ISASI members' attention and support to nurture future aviation safety experts who will contribute to aviation safety improvements in Korea and worldwide.

Far East (Kukdong) University established the Aviation Safety Management Department in Korea this year and is the seventh university to become an ISASI corporate member. It is the only university in Korea to have a network that can conduct international research and exchanges on aviation safety and accident investigations.

Ki-il Ryu, president of Far East University, noted that the Department of Aviation Safety Management was established "because there was no place in Korea to train the most important aviation safety experts in the aviation industry. We will nurture high-level aviation safety experts to work on the international stage, including the International Civil Aviation

Organization, and ultimately contribute to making safe air travel for everyone."

Dr. Yu Kyung-in (Jenny Yoo), who is an active ISASI member and an executive director of the Korean Society of Aviation and Railway Accident Investigation, will be in charge of the newly established Aviation Safety Management Department. She has served as an aviation accident investigator for an airline and the Ministry of Land, Infrastructure, and Transport for 30 years.

According to Yu Kyung-in, "We will use knowledge from aviation safety research at the university and within the international air safety network to provide students the aviation safety expertise and accident investigation techniques that meet international standards and assist them to gain competency to act as safety experts in the domestic and international arenas." ♦

극동대학교 항공안전관리학과와 에어부산 안전보안실 간 교육협력 업무협약서

극동대학교 항공안전관리학과(이하 '안전관리과' 라 한다)와 에어부산 안전보안실(이하 '안전보안실' 이라 한다)은 상호 간 다음과 같이 업무 협약을 체결한다.

제1조(목적)

안전관리과와 안전보안실은 항공 안전정책 선진화, 전문인력 육성, 안전의식 확산, 지식·경험 공유 등을 위하여 이와 같은 업무 협약을 체결한다.

제2조(협력 범위) 안전관리과와 안전보안실은 다음 각 호의 제반사항에 관하여 상호 적극 협력하고, 더욱 발전시키도록 노력한다.

1. 항공 안전교육과정 공동 개발 및 활용
2. 교육용 콘텐츠 지원 및 우수 강사 풀 제공
3. 기술제휴, 분석, 품질 등 업무 협조
4. 기타 안전교육 등 필요한 사항에 대한 지원 등

제3조(효력)

① 본 협약서는 체결일로부터 효력을 발생하며, 특별한 사유가 없는 한 효력은 지속하기로 한다.

② 본 협약의 내용을 개정 및 폐지하고자 할 경우에는 협약 당사자 간에 서면 협의를 통해 결정한다.

제4조(기타사항)

① 제2조 각호의 추진에 필요한 세부사항은 상호간에 협의하여 정한다.

② 본 협약서에 명시되지 않은 사항에 대해서는 신의성실 및 호혜의 원칙에 따라 상호 협의하여 결정한다.

안전관리과와 안전보안실은 이 협약 체결을 증명하기 위하여 협약서 1부를 작성하여 기명 날인 후 각자 원본을 보관한다.
